MINISTERIO DE AGRICULTURA Y GANADERIA

DIRECCION GENERAL DE ECONOMIA AGROPECUARIA

República de El Salvador, C. A.

REF.

Nº

San Salvador, diciembre de 1993.

Estimado (s) señor(es):

El Anuario Estadístico Agropecuario No. 32 que presentamos reúne los resultados de las investigaciones realizadas por las Divisiones de Estadísticas Agropecuarias y Análisis de Mercado, durante el año Agrícola 1992-1993, así como las Cifras del Banco de Datos de la División de Comunicaciones de la Dirección General de Economía Agropecuaria.

Agradecemos, de manera especial, la colaboración de agricultores, ganaderos, transportistas, mayoristas y demás empresas involucradas, en la industria y comercio de productos provenientes del sector, a quienes esperamos atender, como siempre, en sus demandas de información.

DIOS UNION Y LIBERTAD

ING. JORGE ARMANDO ALABI
Director General

MINISTERIO DE AGRICULTURA Y GANADERIA

Ing. Antonio Cabrales
Ministro de Agricultura y Ganadería

Agr. Enrique Olivares
Vice - Ministro de Agricultura y Ganadería

Ing. Jorge A. Alabí
Director General de Economía Agropecuaria

P R E S E N T A C I O N

El Anuario de Estadísticas Agropecuarias No.32 publicado por la Dirección General de Economía Agropecuaria del Ministerio de Agricultura y Ganadería (DGEA-MAG), recoge parte del quehacer de esta Institución creada por Decreto No. 473 del Directorio Cívico Militar de El Salvador, el 13 de diciembre de 1961, que la faculta, entre otras actividades a desarrollar estadísticas referentes a producción agropecuaria nacional, comportamiento del mercado interno y externo de los principales productos e insumos agropecuarios; así también, elaborar estudios y dictámenes técnicos relacionados con las importaciones de productos e insumos agropecuarios.

Con la nueva política del Ministerio de Agricultura y Ganadería, se pretende que la DGEA., facilite a las entidades vinculadas con el sector, el proceso de toma de decisiones, suministrando información estadística confiable, que potencie el desarrollo del sector agropecuario; además, contribuir a la transparencia de los mercados de bienes y servicios agropecuarios a través de estadísticas confiables, proporcionadas por la Dirección General de Economía Agropecuaria.

La información que se presenta en este Anuario correspondiente al período 1992-1993, ha sido recopilada directamente en el campo por enumeradores preparados técnicamente y con un alto grado de responsabilidad, lo que garantiza la calidad y el carácter confidencial de la información proporcionada por los entrevistadores. Los datos obtenidos, después de ser clasificados, son procesados electrónicamente. Con las cifras resultantes se elabora los cuadros estadísticos que contienen la información necesaria para conocer la situación de los

productos objeto de las investigaciones.

La primera parte contenida en el Anuario se refiere a la producción agrícola y presenta datos sobre el área cultivada, producción y rendimiento de diferentes cultivos.

La producción pecuaria se refleja en la segunda parte y contiene cuadros sobre la existencia de ganado bovino, porcino y aves por nivel y sexo; asimismo, se presenta información sobre el sacrificio mensual de ganado bovino y porcino en rastros municipales, según departamento.

En la tercera parte de esta edición se presenta los precios de granos básicos, hortalizas, frutas, ganado bovino en pie, carnes por partes, productos avícolas, lácteos y otros.

La cuarta parte trata sobre el comercio exterior de hortalizas, frutas, café verde, café elaborado, algodón, productos avícolas, lácteos y ganado, fertilizantes simples y compuestos, plaguicidas y material técnico.

La sección de Banco de Datos, de la División de Comunicaciones que contiene series cronológicas de diferentes rubros agropecuarios, se presenta en la quinta parte de este Anuario. Próximamente pondremos a disposición del público las fichas correspondientes a: Granos Básicos, Azúcar y Algodón.

Tanto la preparación de este documento, como de las demás publicaciones que divulga la DGEA-MAG., son objeto de un trato especial, con el único propósito de que nuestros lectores puedan tener una clara apreciación acerca del sector agropecuario.
